

### LALIZAS Buoyant Smoke Signal ASTROS SOLAS/MED/USCG, Orange

74789

Emergency signal for position marking during rescue operations in daytime.

It can indicate the position of distress with the bright orange smoke, as well as for determining the wind direction for rescue. SOLAS requires two smoke signals per liferaft/boat.

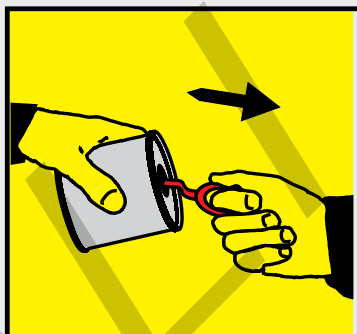

USE ONLY WHEN AIRCRAFT OR VESSEL IS SIGHTED

#### OPERATING INSTRUCTIONS

Step 1

Remove the plastic cap.

Step 2

Pull the ring firmly away from the canister.

Step 3

Through the signal overboard immediately. Smoke will be emitted after 3 seconds delay.

Don't fire the article if you can not control the absence of people within the safe firing distance and/or hazard zone.
